"BT RANGE"

- ▣ Roomstat
- ▣ Programmable or not
- ▣ Wired and Wireless

Better comfort
&
Energy saving

Help the world to reduce CO2 emission

Watts Electronics

Watts Electronics, as part of Watts Industries, develops and manufactures on behalf of leading companies, predominantly in the HVAC sector but also into various different applications within the household appliances.

Combining electronics and mechanics, we bring solutions for your specific needs.

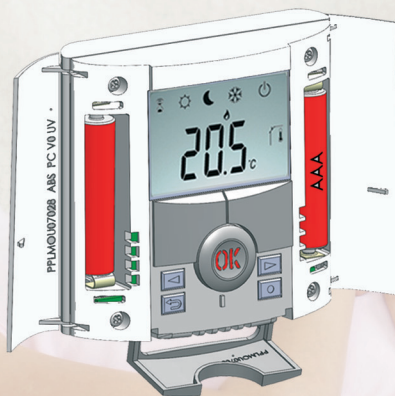

Thanks to this level of research and development, Watts Electronics offers cost effective and innovative solutions to several key European OEM's.

The company is constantly in touch with the academic world so as to provide our customers with state of the art expertise. The Group's motto "technology by nature" is a daily reminder to our employees that a methodical and clear-sighted approach adds value to the customer.

Watts Electronics has more than 550 highly skilled employees divided in our two manufacturing plants based namely Tunisia and France.

For many years, we hold a leader position in the International Market thanks to our group sales network in the US, in Europe and in Tunisia.

"Easy Set-up and uses friendly"

Analogue wired thermostat

- Setting temperature with simple knob
- Power Supply: 2 batteries 1.5V AAA
- Output : Relay 5 Amps
- Connection : Unplugged screw connector
2 Wires
- ON/OFF Slide Switch
- Regulation type : Internal or external NTC sensor

Digital wired non programmable thermostat

- Display Type : Pictogram with white backlight
- Power Supply: 2 batteries 1.5V AAA
- Output : Relay 5 Amps
- Connection : Unplugged screw connector
2 Wires
- Different modes : Boost, Comfort, Night Reduction, Antifreeze and Stop
- Regulation type : Internal or external or combined NTC sensor

Possible options :
Heat & Cool, Hygrostat, ...

Digital wired programmable thermostat

- Display Type : Pictogram with white backlight
(30 minutes bargraph)
- Power Supply: 2 batteries 1.5V AAA
- Output : Relay 5 Amps
- Connection : Unplugged screw connector 2 Wires
- Different modes : Boost, Holidays, Comfort, Auto, Night Reduction, Antifreeze, Clock,
Stop and programs
- Regulation type : Internal or external or combined NTC sensor

Possible options :
Heat & Cool, Hygrostat,
automatic summer winter clock ...

Analogue wireless thermostat

- * Analogue Thermostat
 - Setting Temperature with simple knob
 - Power Supply: 2 batteries 1.5V AAA
 - Output : RF 868 Mhz
 - ON/OFF Slide Switch
 - Regulation type : Internal or external NTC sensor

- * One channel receiver
 - Connection: Screw connector
 - Power supply: 230V 50Hz
 - Output: Relay 12 Amps
 - Different modes: Stop, Forced and auto.

Digital Wireless non programmable thermostat

- * LCD Thermostat
 - Display Type : Pictogram with white backlight
 - Power Supply: 2 batteries 1.5V AAA
 - Output : RF 868 Mhz
 - Different modes: Boost, Comfort, Night Reduction, Antifreeze and Stop
 - Regulation type : Internal or external or combined NTC sensor

- * One channel receiver
 - Connection: Screw connector
 - Power supply: 230V 50Hz
 - Output: Relay 12 Amps
 - Different modes: Stop, Forced and auto.

Possible options :
Heat & Cool, Hygrostat,
Live or dry contact...

Digital Wireless programmable thermostat

- * LCD programmable Thermostat
 - Display Type : Pictogram with white backlight (30 minutes bar graph)
 - Power Supply: 2 batteries 1.5V AAA
 - Output : RF 868 Mhz
 - Different modes: Boost, Holidays, Comfort, Auto, Night Reduction, Antifreeze,
Clock, Stop and programs
 - Regulation type : Internal or external or combined NTC sensor

- * One channel receiver
 - Connection: Screw connector
 - Power supply: 230V 50Hz
 - Output: Relay 12 Amps
 - Different modes: Stop, Forced and auto.

Possible options :
Heat & Cool, Hygrostat, Live or dry contact,
automatic summer winter clock ...

Technology by nature

Product Range WATTS INDUSTRIES

- System disconnectors
- Backflow protection devices
- Check valves
 - Safety units
- Safety relief valves
 - Pressure reducing valves
- Automatic control valves
 - Butterfly valves
 - Shut off valves
 - Measuring gauges

- Temperature control
- Expansion vessels
- Process switches
- Fuel products
- Gas products
 - Electronics controls
- Installation protection products
 - Radiator valves
 - System products
 - Manifolds and fittings
